

EASTSIDE WESTSIDE

Thursday May 16th from 6:30-10pm the Eastside and Westside Ruby Study Groups will finally have a chance to meet and study together in person. The talented people of NationBuilder have graciously lent us their space and time and are hosting our first event. Carlo Flores will be presenting his hands on demonstration of Sinatra. We will all be building a working app together using this platform. There will be food, there will be fun, networking and you will even learn something.

So bring your computer, your business cards and a smile. All are welcome.
